

Choose PCM and experience the best in cutting-edge pump and process technologies!

WHAT DOES ON-SITE PCM MAINTENANCE MEAN FOR YOU?

- You will have direct access to a team of highly-qualified specialists
- You will be guaranteed a service supplement at a lower cost
- You will receive a one-year manufacturer guarantee, excluding wearing parts

OUR EXTENSIVE SERVICE INCLUDES:

- Supplying you with high quality replacement parts (excluding motorization)
- Dismantling your installation pumps, after which you will be fully assured of the electrical and hydraulic safety of the equipment
- Dismantling and degreasing pumps and parts
- Provision of our expertise regarding both parts and the installation (if necessary)
- Replacement of all defective parts
- Re-assembly in full compliance with EC standards
- The control and the draining of the gear reducer
- Our expert assistance in restarting the installation
- Returning of non-used parts to PCM (possible return of worn parts)
- Creating and updating a service log file for each pump
