

Trust your pump maintenance to a leading specialist: PCM!

HOW CAN THE PCM WORKSHOP MAINTENANCE TEAM HELP YOU?

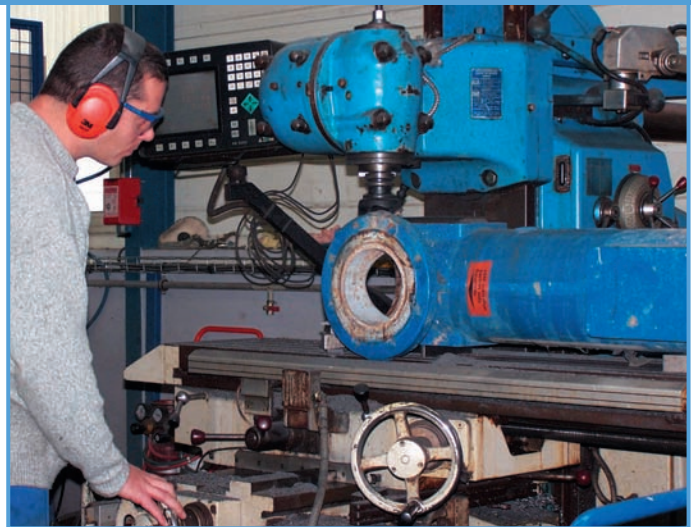

Revamping of a Moineau pump GBB series with installation of the new bridge-breaker device

- You will have our outstanding expertise at your disposal
- We will provide you with a one-year guarantee, excluding the motorization and wearing parts
- Our highly flexible service will meet your specific requirements

OUR EXTENSIVE SERVICE INCLUDES:

- Dismantling and de-greasing
- A visual check on parts and a checking of the dimensions if required
- Mechanical and electrical checks of the motorization
- Clear identification of parts requiring replacement or modification
- Provision of a detailed cost estimate
- Re-assembly in full compliance with EC standards
- The control and the draining of the gear reducer
- A detailed record of the hydraulic tests
- A coat of paint
- **Options:**
The sand-blasting of cast iron parts, a priming coat and our painting of the whole pump

Overhaul of a pump with creation of inspection doors on the pump body
